Thomas G. Nurre, CMSgt (R)  
Coordinator, Goodfellow AFB Airborne Radio Direction Finding (ARDF) Exhibit

Dear Mr. Nurre

I have received your communications, in which you offer to coordinate construction of and give to the Air Force a museum-style exhibit to be used in conjunction with current historical static displays at Goodfellow Air Force Base, Texas. The display proposes to marry artifacts of historical significance provided by Maximum Recovery in Southeast Asia (MRSEA) to an exhibit constructed by Adler Display on your behalf, on location, for approximately \$24,300.

Although, as a prospective gift, this office is not now in the position to accept the gift itself, I would like to express on behalf of myself and the Secretary of the Air Force our support for this offer. Upon your receipt and ownership of the artifacts, and contract of Adler Display, I anticipate acceptance of your generous gift.

Sincerely

A handwritten signature in cursive script, reading "Leonard A. Patrick", is written over the typed name.
